STAT

Admiral Hillenkoetter has instructed me to send you the attached Personal History Statement forms and to request that you complete and return two copies to me to assist us in processing your application to come into this organization. The completed statements will be used as a basis for an investigation by the FBI which all individuals who come on duty with us must have.

I am also enclosing forms for your brother [redacted] in order to avoid delay in waiting for his Form 57 and then sending these forms to him. As I do not have his address it would be appreciated if you would give them to him and explain the basis for requesting their completion.

We shall do our best to place you both in the spots where you will be able to feel that you are being of very definite service and where there will be plenty of work to do. We will not, however, be able to make any final decision until the investigation referred to above has been completed. This sometimes takes several weeks.

Sincerely,

[redacted]  
Acting Executive Director
